

To whom it may concern,

The Dance Centre Prague is one of the eldest and the most relevant dance education institute of the Czech and also middle European dance education field.

The Dance Centre Pargue is a very great school who has large and important international partners from all over the world. The school represents the Czech and the European dance education culture in a very high level both in professional and also artistic level.

The director of the school Mr. Antonin Schneider is a very dedicated, enthusiastic and a professional person who organize the work of the school in a very high level and successfully since many decades ago.

I have a very fruitful collaboration with Dance Centre Pargue and with Mr.Schneider since 1998.

The school has been cooperating for a long time with the greatest masters and choreographers of Czech Republic and the most relevant masters and choreographers of the international dance life just like Petr Zuska, Jiri Kylian, Lidia Wos, Samuel Delvoix and many others.

I study with great regret that due to infrastructural problems, the operation and the existence of this great school may be at risk.

I would like to kindly ask for the honorable decision makers for give helping hands for the school to solve their problem in the interest of the following existence of this very important dance school.

Sincerely yours,

Attila Egerházi
